

ER Update:

Improved emergency services will now be provided exclusively at **Springfield Regional Medical Center's High St. Campus**

when we bring all of our ER resources and expertise together on one campus.

Thank you for trusting us with your healthcare now and for years to come.

Effective March 29, 2010, the Emergency Department at Springfield Regional Medical Center – Fountain Blvd. will close.

Improved Services at High Street ER

Our goal is not only to improve care now, but also to make a smooth transition into the new hospital. When you visit our ER at 2615 East High St., you will find:

- Full service, 24/7 emergency care
- Experienced physicians and staff
- Expanded treatment and triage areas
- Direct access to hospital services

Urgent Care Centers

When your physician's not available – and someone in your family encounters a minor illness or injury – the area's urgent care centers are ready to serve you.

Community Urgent Care

- 2555 Creekwood Ct., Springfield
- 2200 N. Limestone St., Springfield
- 848 Scioto St., Suite 2B, Urbana

Hometown Urgent Care

- 1301 W. First St., Springfield

...and coming in 2012

Expanded emergency services at the new Springfield Regional Medical Center.

Remember...

Full service, outpatient imaging services, including X-ray, digital mammography, CT and MRI, are still available at the Springfield Regional Imaging Center, 1343 N. Fountain Blvd., Springfield.
